

# 8<sup>th</sup> Grade Registration

PIONEER RIDGE MIDDLE SCHOOL  
2018-19

Hello 8<sup>th</sup> Grade Students and Families.

Welcome to the 8<sup>th</sup> grade registration process! This registration process is your opportunity to begin shaping your middle school schedule for the 2018-19 school year.

The **Pioneer Ridge Middle School Registration Manual** with course descriptions is available online at [prm.district112.org](http://prm.district112.org). Please contact the main office at 952-556-7800 if you need a hard copy of the registration manual.

Below is a sample schedule to identify required courses and electives. Individual schedules and hours will vary.

---

**Active! For Life: 27817 - Department: Personal Wellness**  
Active! For Life is an activity-based course that will allow students to engage in a wide array of topics related to health, physical fitness and the development of a high quality lifestyle. Topics can vary based on facilities but may include Group Fitness, Strength Training, Kickboxing, Kettlebell, Tabata, Pilates, Yoga, Basic Nutrition and Cardiovascular Training. Students learn how being physically active affects personal health. Students will learn how to self-assess their fitness levels and eventually create a personal fitness plan for their future. Using some of the latest technology and research, students will develop a basic understanding of the biomechanics of movement and its effect on performance of the human body.

---

**Digital Visual Arts and Animation: 21812 - Department: Visual Art**  
Have you ever wondered how computer animated movies are made, what logos mean and how they are created, or what goes into the hilarious Super Bowl ads we see every year? This class will teach students the skills necessary to create digital artwork for the expectations of a client versus personal preference. Projects may include graphic novel illustration, stop motion advertisement, logo design, digital portraiture, and branding products, businesses, or political campaigns.

---

**Engineering: Transportation & Robotics: 25812 - Department: Technology Education**  
This course provides students the opportunity to apply multiple technologies in the areas of transportation and robotics. Students will apply the design process to solve technical challenges. Robotic programming and software simulation will be used throughout this course. Students will also have the opportunity to use several types of hand tools and machines to complete their projects. Projects may include kites, hot air balloons, rockets, planes, CO2 car, gear cars, and programmable robots.

---

**Food and Global Sciences: 23812 - Department: Family & Consumer Sciences**  
Food experiments that you can eat; the kitchen becomes a laboratory! Join us as we investigate the chemistry of foods we eat. In addition to studying food science, our global travels will explore how the world eats and lives. Cultural food labs and demonstrations will take your taste buds to a new level. Finally, this course will help you jumpstart your consumer independence.

---

**Wide World of Music: 26717 - Department: Performing Arts**  
Discover music in a way you never thought you would love! In this course, you will be introduced to many areas of music; ranging from world drumming to playing the guitar. We will also explore music’s evolution from classical music to contemporary pop music. We will create, play, reflect, and respond to music; often in unexpected ways!

We do our best to honor all student course requests; however, classes are subject to availability and may be cancelled if registration numbers cannot support one section.
